

We love these parties and put our whole heart into making sure everyone gets a great painting and has a wonderful time!

We have put together a few answers to some frequently asked questions, below, but if you have anything else that you're wondering about, you can absolutely send me a message

FAQ'S

What is included?

The kids each paint a canvas, anything they like! I have LOTS of fun examples in the studio and we have run hundreds of these parties - kids always choose something great and get a fantastic result. Some parents can be concerned about kids not having a step by step instruction - I can tell you from the 150 kids we have in the studio each term and all the parties we have done in the last 4 years, this is not the case! Kids thrive on being able to create their own version and have a choice. Even the most decision-hating kid finds a great

What if the kids don't finish their painting?

This hasn't happened yet - I won't let it. I help any kids (with lots of background, for example) and we also allow plenty of time for even the most detail-filled painting. I will also help and guide the kids in a way that allows them to succeed with great results

What should I bring?

Nothing is needed for the paintings, but you may like to bring some snacks, balloons, cake etc. Please keep in mind, the kids are much too busy painting to eat while they are creating but they will finish at different times and some snacks are good for kids who paint quickly and are waiting for their friends to finish so they can sing happy birthday.

Please don't bring anything else (like pinatas) as it is a working studio and we have artists and students paintings on the walls. Of course you are welcome to pop over to Rosiland park and continue celebrating in the park - its a very short walk just over the crossing and a lot of parties have done this (or the green in front of the library) if your child would like to have some party games or pinatas etc.

Do parents stay?

I usually leave this up to the parents. Usually the birthday child parent/s stay for the duration but most other parents choose to drop off and come back at the end. If a parent is asking you, you are welcome to let them know that whatever suits their child works perfectly for us.

What is the time breakdown?

Parents and birthday child can arrive 15 minutes before the party to set up the cake/balloons/snacks on a table (provided). As kids arrive I will chat to them about some ideas they may have and get them settled. Party starts right on the start time. Kids paint for the allocated painting time (depends which package you have selected) and then there are 15 minutes at the end for cake and for me to finish drying all the masterpieces so they don't go home wet.

Do you provide party bags?

Absolutely we do! We love art themed party bags with all the favourite things kids love best in the studio, stickers, gems, fun and quirky pens, cute little notebooks, animal shaped novelty paperclips - all the most coveted treasures the kids in class love! Starting from \$7 per person, we can work to a budget that suits you best. Contact me for more info.
